

MR. CHAD CORNETT: Good evening. I'm Chad Cornett. I'm with the Area Development Partnership, the acting agent for the local Board of Supervisors of Perry County in which the Richton site resides. And on behalf of the Board of Supervisors and the greater Hattiesburg area, we welcome you and we thank you for the opportunity to give our insight. As a part of that, we would like to offer our political support with the resolution recommendations and the further submission of written reports of the 28th deadline. We thank you for the opportunity. And we'd like to echo the State's initiatives of your positive ripple effects that this plan may provide in the site selection and appreciate your environmental soundness. And again, we'll echo those in written reports. Thank you.
